WordPress		

Work History

Front End and Designer at ThinkZion (2016 - current)
JavaScript/HTML5/CSS3, jQuery, Bootstrap, PHP7, SourceTree, Git, Adobe Creative Cloud (Photoshop, Illustrator, InDesign), Visual Studio, SASS/LESS, Koala CSS preprocessor

CNC Machinist/Designer at Broens industries (2007 - 2016)
AutoCAD, Inventor, Solidworks and Mastercam

Education

Diploma of Interactive Digital Media (web & mobile) (2016 - Current)
CNC CAD/CAM (2015 - 2016)
Certificate 4 for Mechanical Engineering (Fitting Machining) (2007 - 2011)

Recent Clients

Kosrae Nautilus Resort (Feb 2017)
Making international headlines after it was raffled off in July 2016 to two lucky Australians, the resort has enjoyed a very successful new website launch in February 2017. We boosted user base by over 800% at launch and reduced bounce rate dramatically by over 50%

GNSS Monitoring (Oct 2016)
Advanced live CSV data Graphing and Map Integration

Kosrae Diving (Mar 2017)
The sister site of the international headlining Kosrae Nautilus Resort we recently launched, offering a more in-depth island wide guide from under the surface of the ocean

Summary

I'm an enthusiastic Front End Developer/Designer currently studying my passion at SAE Qantm. I've had real world experience working on an array of projects including building and maintaining Kosrae Nautilus resort and diving websites

JavaScript/HTML5/CSS3, jQuery, Bootstrap, PHP7, WordPress, SourceTree, GitHub, Version Control, Google Analytics, Adobe Creative Cloud (Photoshop, Illustrator, InDesign), Visual Studio, Sublime Text, SASS/LESS, Koala CSS preprocessor, Project Management, Customer Relations

At Broen Industries, a precision aerospace company, I have worked with several departments including CNC machining, design and fitting. Each role has offered me a different skill set - including operating different machines - requiring knowledge of programming and software
